Honorary Chair

César O. Malavé
Texas A&M University at Qatar, Doha, Qatar

General Chair

Tingwen Huang
Texas A&M University at Qatar, Doha, Qatar

Advisory Chairs

Guanrong Chen
City University of Hong Kong, Hong Kong

Juergen Kurths
Potsdam Institute for Climate Impact Research
Potsdam, Germany

Ljiljana Trajkovic
Simon Fraser University, Burnaby, Canada

Steering Chairs

Mario di Bernardo
University of Bristol, UK

Jinhu Lu
Chinese Academy of Sciences, Beijing, China

Michael Small
University of Western Australia, Crawley, Australia

Organizing Chair

Milivoj Belic
Texas A&M University at Qatar, Doha, Qatar

Program Chairs

Chuandong Li
Southwest University, Chongqing, China

Wenwu Yu
Southeast University, Nanjing, China

Publicity Chairs

Francis Lau
The Hong Kong Polytechnic University, Hong Kong

Xiang Li
Fudan University, Shanghai, China

Publications Chair

Yeran Soukiassian
Texas A&M University at Qatar, Doha, Qatar

Registration Chair

Hala El-Dakak, Texas A&M University at Qatar, Doha, Qatar

Secretariat

Susan Rozario, Texas A&M University at Qatar, Doha, Qatar

Call for Papers

www.iwcsn2017.org

The 2017 IEEE International Workshop on Complex Systems and Networks (IWCSN2017) will be held in Doha, Qatar during December 8-10, 2017, as a sequence to IWCSN2004 (Bologna, Italy), IWCSN2005 (Hong Kong), IWCSN2006 (Vancouver, Canada),......, IWCSN2015 (Perth, Australia) and IWCSN2016 (Atlanta, USA). This series of conferences has been held annually since 2004, and now it has become a premier international workshop in the areas of complex systems and networks.

IWCSN2017 aims to provide a high-level international forum for scientists, engineers, and educators to present and learn about the state-of-the-art of research and applications on complex networks. The workshop will feature invited speeches given by renowned scholars, and will have regular sessions with broad coverage, as well as tutorial sessions on frontier research topics. Furthermore, the workshop provides opportunities for researchers and students from diverse disciplines to interact, find common interests, share results and ideas, and foster collaborations.

Call for Papers, Abstracts and Tutorial Sessions

Prospective authors are invited to either contribute high-quality original papers or abstracts to IWCSN2017. Accepted full papers will be published in the proceedings of IWCSN2017 which will be documented by the IEEE Xplore Database and be indexed by EI Compendex. In addition, proposals for tutorial sessions within the technical scopes of the conference are solicited. Tutorial sessions will be organized by internationally recognized experts, to systematically discuss hot research topics and addressing college students in Qatar and young researchers in general. Scientists interested in organizing special sessions are invited to send short proposals including title and abstracts to iwcsn2017@qatar.tamu.edu.

Interest Areas

Interest areas include nonlinear dynamics analysis, complex system engineering design, communication networks, smart, power grids, electronic circuits, biomedical systems and networks, modeling and analysis of complex systems, multi-agent systems, networked control systems, neural networks, disease spreading, and applications in finance, social science and the like.

Important Dates

Special Sessions deadline……………………………………….……………… May 15, 2017
Paper submission deadline……………………………………….....……...……...July 15, 2017
Notification of acceptance……....…………………………………….......September 1, 2017
Camera-ready paper and author registration…………………………………October 1, 2017
