

Panel Discussion Cum Lecture on Industry Engagement with Mainland Enterprises Dr Edward Tse, Founder & CEO of Gao Feng Advisory Company

It was a great delight and pleasure to have Dr Edward Tse, Founder & CEO of Gao Feng Advisory Company, a global strategy and management consulting firm with roots in China, to host a panel discussion with our EE faculty and students on 2 September 2016, sharing with us on how to build and strengthen industry engagement and knowledge transfer, especially with mainland industry and enterprises. His sparkling lecture, organized by Institute of Advanced Study (IAS), CityU, on topic “China’s Disruptors – How Chinese Entrepreneurial Companies are Changing China and Rest of the World” was also inspiring to the CityU community.
