

# Career Talks by Renowned IT and Electronics Companies on 4 March 2014 and 25 March 2014

With much honor the Department invited renowned IT and Electronics Companies to give career talks to our final year undergraduate and master students on 4 March 2014 and 25 March 2014. In total about 200 students joined. Participating companies include:

- ASM Pacific Technology Ltd.
- Atos Information Technology (HK) Ltd.
- CABLE Communications Ltd.
- Deloitte Touche Tohmatsu
- Fujitsu Hong Kong Ltd.
- GP Electronics
- PCCW Solutions
- Thales Transport & Security HK Ltd.

Experienced professionals of the companies spared their valuable time to advise our students of the possible career opportunities and prospect, not only limited to those in their companies, but also in the IT and electronics industry at large. EE graduates working in some of the companies came back to encourage their fellows by sharing their own stories on career development. EE students also grabbed the valuable chance provided at the break-out sessions to know more in-depth about the companies, the jobs and the industry.

*Sharing working experience by Mr LAW Chi Hang Henry (BEngE graduate 2013) who is now working at Atos Information Technology (HK) Ltd.*

*EE students participated actively during the break-out sessions leading to a fruitful ending of the event on both dates.*
