

## **Huawei Hiring PhD Graduates in WLAN & IoT**

WLAN &IoT Research Centre in Networking Production Line Research Centre of Huawei Technologies Co.,Ltd. is now hiring PhD students who are graduating in 2018 and 2019.

### About Huawei

At Huawei, we define human progress by innovations that enrich humanity. We do not view connectivity as a privilege, but a necessity. We believe that the impact of information and communications technology should be measured by how many people can benefit from it. Huawei is a leading global ICT solutions provider. Through our dedication to customer-centric innovation and strong partnerships, we have established end-to-end capabilities and strengths across the carrier networks, enterprise, consumer, and cloud computing fields. Our products and solutions have been deployed in over 170 countries, serving more than one third of the world's population. Huawei's vision is to enrich life through communication. By leveraging our experience and expertise in the ICT sector, we help bridge the digital divide by providing opportunities to enjoy broadband services, regardless of geographic location. Contributing to the sustainable development of society, the economy, and the environment, Huawei creates green solutions that enable customers to reduce power consumption, carbon emissions, and resource costs.

### About the job

**Location:** Shenzhen, Nanjing, Wuhan, Chengdu, Munich

**Employment Type:** Full-time

**Joining Date:** From now, until Oct. 31<sup>st</sup>, 2019

**Job Functions:** Engineering, Standardization and International Collaboration

### **You will get involved in some of the following projects:**

- Join our WLAN&IoT research team.
- Standardization of IIoT technologies.
- Standardization of IEEE 802.11ax.
- Development of civil/industrial IoT products.

### **Desired Skills and Experience:**

1. PhD degree in EE/CE or equivalent
2. Architect, document, code, verify, lab test industrial protocols
3. With at least two of the following skills: Matlab, C, Python, Java, FPGA development, Linux
4. Oral and written Chinese/English, knowing German is a big plus
5. Team work/self-motivated
