* This booklet aims only to provide an easy reference for students. The contents of this document will be updated from time to time. Students affected by the change(s) will be notified via email. Updated information can also be accessed through the Student Page - Programme Information (Username: eestudent; Password: eestudent) at EE homepage: www.ee.cityu.edu.hk.

HEAD'S WELCOME

Dear Students,

Welcome to the Department of Electronic Engineering (EE)! EE is always striving

for being a leading department of its kind among global tertiary institutions and

providing programmes that are of the highest possible standard with an

enhancement of specialist technical knowledge relevant to the current and

anticipated needs from the industry. You are here to experience the dynamics of EE

and we appreciate your input and feedback for our continuous improvement.

You will be joining a family with students in diverse backgrounds, covering

students from local, mainland China and overseas, full-time working engineers,

students with different Bachelor's degrees, etc.. It will be a place for you to meet

and study side-by-side with different people, not only for equipping the technical

knowledge, but also to gain social, networking and communication skills, far more

than you can imagine.

The time you stay with us may be around one to two years. It's not that long. I

would suggest you plan in details what you would like to achieve and how to

achieve the best outcomes at the very beginning of the academic year. Don't

hesitate to contact any Programme Team members for advice and assistance. We are

all here to support and guide you throughout your course of study.

I sincerely hope that you find the study here extraordinarily rewarding yet enjoyable.

Stella W Pang

Stury

Head and Chair Professor

Department of Electronic Engineering

August 2018

INTRODUCTION

A. Programme Title : MSc in Multimedia Information Technology (MSMIT)

理學碩士(多媒體資訊科技)

Optional Exit Routes

- Business Management (BM) Option
- Industrial Research (IR) Option

B. Mode of Attendance and Study Duration

	MSI	MIT	MSMIT	with BM	MSMIT with IR				
	Full-time	Part-time/ combined mode	Full-time	Part-time/ combined mode	Full-time	Part-time/ combined mode			
Normal period of study	1 year	2 years	1.5 years	3 years	1.5 years	N/A			
Maximum period of study	2.5 years	5 years	3.5 years	7.5 years	3.5 years	N/A			

C. Programme Aim

The programme provides well-structured training for IT professionals who want to keep abreast with the dynamics in multimedia and information technology. It aims at equipping students with in-depth knowledge of the state-of-the-art multimedia information technology and the necessary skills to meet the needs from the community. On completion of the programme, students with different technical backgrounds and aspirations can:

- have a strong theoretical foundation in multimedia systems and applications, mobile computing, internet computing and networking
- acquire analytical ability that enables them to conduct high-level research and development in the rapidly changing IT industry
- > enhance their capacity to continue professional and career development

D. Programme Intended Learning Outcomes

On completion of the programme, students should have the following demonstrable learning outcomes:

- 1. Describe current and anticipated trends in the selected areas including the processing, storage, retrieval, communication and visualization of multimedia information.
- 2. Evaluate and analyze new technologies in the selected areas.
- 3. Apply specialist knowledge in the selected areas.
- 4. Assess, evaluate and formulate solutions to problems or specifications, in the selected areas.
- 5. Carry out research and develop new technologies and products in the selected areas.
- 6. Apply effective communication skills in their professions.
- 7. Manage teams of technologists with good senses of business and marketing (BM option only).
- 8. Manage a research project and develop strong ability to do academic/ industrial research (IR option only)

E. Business Management Option

The exit route, Business Management option aims to equip engineering students with business management skills on top of the specialist technical knowledge, and thus enabling students to cope with the industrial demand of well-rounded professionals and take up managerial positions in their career.

F. Industrial Research Option (For students who opt for studying full-time mode only)

The exit route, Industrial Research option offers an Applied Research Internship Scheme to be carried out in industrial companies or research institutions, either locally or in overseas for 6 to 9 months, equipping students the professionalism to handle a technically challenging research project intellectually, innovatively and independently. This provides an even more flexible way-out that the industrial and research experiences earned advantageously prepare graduates for full employment immediately after the internship, or for further studies as PhD candidates in their chosen technology areas either locally or in overseas countries.

PROGRAMME INFORMATION

A. Multiple exit routes and re-entry routes

	Credits	Re-entry routes	
Entry/Exit routes	gained on exit	То	Maximum allowable credit transfer ¹
MSMIT	30 CUs	BM Option	30%
BM Option ²	45 CUs	N.A.	
IR Option ³	45 CUs	N.A.	

Notes:

- 1. Grades from transferred credits may be counted in the calculation of a student's GPA for the award being pursued.
- 2. Students who want to opt for the BM option should fill in the BM option application form available from the General Office, or download from "Student Page Programme Information" under the EE website: http://www.ee.cityu.edu.hk (Login: eestudent, Password: eestudent).
- 3. Industrial Research (IR) option is for students who opt for studying full-time mode only. Details for transferring to this exit route will be advised via email in due course.

B. Laboratory

The laboratory session, being an integral part of an elective course, consists of experiments and mini-projects to enable students to fully appreciate and make use of the lecture materials.

C. Programme Requirements

MSMIT:

Students must complete a total of <u>30 CUs</u> of which:

- At least 6 CUs of EE core courses
- At least 15 CUs of technical elective courses (Group I+II) where no more than 9 CUs of Group II electives
- No more than 6 CUs of BM electives
- Minimum 18 CUs of EE courses

Industrial Research (IR) Option¹:

Students must complete a total of 45 CUs of which:

- At least 6 CUs of EE core courses excluding EE6691
- At least 15 CUs of technical elective courses (Group I + II) where no more than 9 CUs of Group II electives
- No more than 6 CUs of BM electives
- 15 CUs of EE6691 Applied Research Internship Scheme in Electronic Engineering
- Minimum 18 CUs of EE courses excluding EE6691

Business Management (BM) Option²:

Students must complete a total of <u>45 CUs</u> of which:

- At least 6 CUs of EE core courses
- At least 15 CUs of technical elective courses (Group I + II) where no more than 9 CUs of Group II electives
- At least 15 CUs of BM electives
- Minimum 18 CUs of EE courses

Notes:

- 1. The award title will be "Master of Science in Multimedia Information Technology with Industrial Research".
- 2. The award title will be "Master of Science in Multimedia Information Technology with Business Management".

D. Course Assessment Table

The course details are shown in Figure 1. The offering schedule specified in Figure 1 is under normal circumstances and might be subject to change due to different timetabling and teaching assignment constraints in different years. Students may take it as reference and please pay attention to the master class schedule announced by the Chow Yei Ching School of Graduate Studies (SGS) prior to each semester for course registration and add/drop arrangement. Also the course syllabus or assessment are under continuous review as deemed necessary and appropriate. For the latest course information, you are always advised to refer to the syllabus of each course which is available at "Student Page - Programme Information" under the EE website: http://www.ee.cityu.edu.hk. (Login: eestudent, Password: eestudent).

Figure 1: Course Assessment Table for MSMIT, BM Option and IR Option (2018/2019 and Summer 2019)

MSMIT

Students must complete a total of <u>30 CUs</u> of which:

- At least 6 CUs of EE core courses
- At least 15 CUs of technical elective courses (Group I + II) where no more than 9 CUs of Group II electives
- No more than 6 CUs of BM electives
- Minimum 18 CUs of EE courses

Industrial Research (IR) Option

Students must complete a total of 45 CUs of which:

- At least 6 CUs of EE core courses excluding EE6691
- At least 15 CUs of technical elective courses (Group I + II) where no more than 9 CUs of Group II electives
- No more than 6 CUs of BM electives
- 15 CUs of EE6691 Applied Research Internship Scheme in Electronic Engineering
- Minimum 18 CUs of EE courses excluding EE6691

Business Management (BM) Option

Students must complete a total of 45 CUs of which:

- At least 6 CUs of EE core courses
- At least 15 CUs of technical elective courses (Group I + II) where no more than 9 CUs of Group II electives
- At least 15 CUs of BM electives
- Minimum 18 CUs of EE courses

Students can decide on their own pace of studies based on the pre-requisite and pre-cursor requirements. Part-time students can select courses of up to 9 credit units in each semester and complete the programme normally within 2 years' time, except for students who opt for BM option and normally complete the programme in 3 years. Full-time students can select courses of up to 18 credit units in each semester and complete the programme normally within 1 year time, except for students who opt for BM/IR option and normally complete the programme in 1.5 years.

Key: CU C Credit Unit Lecture Tut Tutorial Lab Laboratory Lec = X Coursework = Examination Exam Dur = **Exam Duration** S/A/B =Semester Summer/Semester A/Semester B

Notes:

- 1. Pre-cursors are not requirements, but students are advised to have adequate knowledge of the pre-cursors before registering in a particular course.
- 2. Pre-requisites are requirements that must be fulfilled before students can register in a particular course.
 - Equivalent courses proposed by students, other than those listed, are to be considered and approved by the course leader concerned.

Students' proposal of an equivalent course to fulfil the pre-requisite requirement can be considered case-by-case. Supporting documents, for example, the syllabus of the proposed course and the relevant transcript should be submitted to the General Office together with the hard copy of Add/Drop form during the ADD/DROP period of the semester.

- 3. To pass the course, students are required to achieve at least 30% in course work and 30% in the examination. Also, 75% laboratory attendance rate must be obtained.
- 4. To pass the course, students are required to achieve at least 30% in course work and 30% in the examination.
- 5. For a student to pass the course, at least 30% of the maximum mark for the examination must be obtained.
- 6. SCM courses are offered in day time only.
- 7. Student must pass both coursework and examination in order to get an overall pass in this course.
- 8. Course Duration: Part-time mode: minimum 3 consecutive semesters/terms, maximum 5 consecutive semesters/terms; Full-time mode: minimum 2 consecutive semesters/terms, maximum 4 consecutive semesters/terms. Students taken EE6680 Dissertation (9 credit units) and upon successful completion of the programme requirement will be considered eligible to apply PhD programme of CityU, provided that the English proficiency requirements are met.9.
- 9. CUs earned from this course could be counted as either fulfilling credit unit requirement of Group II technical electives or that of business management elective.
- 10. For full-time mode student only: 2 semester/term with possibility to extend for 1 more semester/term (As set out in City University's Academic Regulations, Dissertation-type courses are not allowed to be repeated). Also, the coursework assessment is divided into two major components: Internship Component (40%) and Research Component (60%).
- 11. The course will be conducted by having internship in local or overseas institution for 9 13 weeks. The assessment will be in a form of completion of log book, discussions/visits to obtain feedback from training company and final presentation.
- 12. To pass the course, at least 30% of the maximum mark for the examination and course project must be obtained.
- 13. Students are required to pass both coursework and examination components in order to pass the course.
- 14. Two-year full-time working experience (internship experience or similar are not counted) is required for taking this Management (MGT) course.
- @ Some of the lecturers will be conducted in the laboratory as case studies, demonstrations and experiments.
- * Some of the tutorials will be conducted in the laboratory.
- μ Tutorials may be substituted with lecturers/laboratories.
- ^ Mixture of Research, Oral presentation, Test/examination/demonstration.
- £ Some of the lectures will be conducted in the laboratory.
- ® 6 weeks of the lectures will be conducted in the laboratory as Laboratory sessions.
- \in Some of the lectures will also be conducted in class as mini-projects.
- \pm Some of the lectures hours will also be conducted as in-class exercises, case studies, and mini-projects.
- ≥ Some of the lectures will be conducted in the form of laboratory tutorial, case studies, and presentation.
- Ω Some of the lectures will be conducted in the laboratory as case studies, demonstrations, project discussions, Eco-design simulations and experiments.
- β Case study: 3hrs/wk for 1 week
- © Student are expected to spend 1.5hrs/week on case study.
- Small class/ group based learning activities: 13 hours/semester (in-class)

E. Tuition Fee for 2018/19

Programme fee: HK\$3,350 per credit unit (local students)

HK\$5,050 per credit unit (non-local students)

F. Cut-off Date for Calculating Tuition Fee

At the end of the Web Registration Period (i.e. Add/Drop Period) which is normally the

first teaching day in Week 2.

G. Leave of Absence and Continuation Fee

If a student does not wish to take any courses in any semester, he/she MUST apply

for Leave of Absence by the end of Week 2. He/She is required to pay a

Continuation Fee of \$1,500. Students applying for Leave of Absence should submit

an online application via AIMS. Details can be found at SGS website

(http://www.sgs.cityu.edu.hk/student/TPg/record/leave)

H. Fee for Late application for Leave of Absence

(i) If a student applies for Leave of Absence from Week 3 till the end of Week 6[#] in

Semester A/B (or the end of Week 3[#] in Summer Term), the student will be liable

for 50% of the tuition fee payable for that semester/term, or the minimum tuition

for two credit units (for programmes charged on a per credit unit basis),

whichever is higher

(ii) If a student applies for Leave of Absence in Week 7[#] and afterwards in Semester

A/B (or Week 4# and afterwards in Summer Term), the student will be liable for

100% of the tuition fee payable for that semester/term, or the minimum tuition for

two credit units (for programmes charged on a per credit unit basis), whichever is

higher.

Sunday is the first day of the week.

16

COMMUNICATION CHANNELS

Students are welcome to share your concerns and opinions with staff of the Department through the following formal and informal channels. You may simply drop in the staff's office or send an email to arrange a meeting with him/her.

Course Leaders

Your course leaders are here to guide you through your studies. If you encounter any difficulties in a particular course, speak directly to the lecturer responsible for the course.

Associate Programme Leader (Postgraduate Programmes)

Your associate programme leader are concerned about students' overall performance and curriculum design. They are also responsible for the day-to-day management of the programme. Let them hear your voice!

Associate Head

The Associate Head is responsible for coordinating the academic affairs of the Department and overseeing the quality of all taught programmes. He welcomes suggestions for enhancing teaching and learning quality.

EE Student Page

The most updated information about the programme can be found at the Student Page under the EE homepage at http://www.ee.cityu.edu.hk. Both the user name and password are "eestudent". Do always check for updates.

Emails

The Department will also interact with students via email and informal contacts by staff members, as appropriate. Since important announcements will be sent to students via email, students are requested to check their emails frequently.

Programme Committee

This is a formal consultative channel between staff and students. It typically meets once per semester.

Constitution

Chairman Associate Programme Leader (Postgraduate Programmes)

Ex-officio Members Associate Head

Nominated Members At least one programme advisor from each level of the

course/subject group

One staff representative of each servicing department

Student Members One student representative from current students studying the

programme

Co-opted Members No more than two co-opted members

The term of office of all nominated, elected and co-opted members shall be one year.

Terms of Reference

Within the policies and procedures of the Senate and the College Board to be responsible for the College Board for –

- 1. The maintenance of the quality of the programme to ensure the attainment of its aims and objectives, including:
 - Systematic monitoring and evaluation of the programme;
 - The review of examination results of the programme;
 - Consideration of external examiners' reports on the programme and monitoring of any consequential action;
 - The development of the programme and modifications to it;
 - The consideration of the student feedback on the programme.
- 2. The development of policy to meet the needs of the programme in relation to:
 - The recruitment and selection of students:
 - Assessment;
 - Teaching and learning methods.
- 3. Recommending to the College Board the appointment of proposed external examiners.
- 4. The preparation of such reports as may be required by the College Board or Senate including submission to the Head of Department each year of an annual report on the programme.

FREQUENTLY ASKED QUESTIONS

Q1: How can I register for courses?

Check the announcements from the Chow Yei Ching School of Graduate Studies (SGS) or visit this website for details: http://www.sgs.cityu.edu.hk/student/tpg/coursereg.

- Q2: When and how can I apply for credit transfer?
 - Application period for courses taken <u>before</u> you entered the University: <u>16 July to</u>
 1 September 2018.
 - Application for courses completed <u>after</u> admission: made immediately in the semester following attainment of the additional qualification. For details and application method, please visit SGS website: http://www.sgs.cityu.edu.hk/student/TPg/record/credittransfer.
- Q3: How can a student graduate?

A postgraduate student can graduate if he/she has fulfilled all programme requirements AND achieved a CGPA of 2.0 or above.

Q4: How can I select elective courses?

Students will be notified of the course selection exercise for next academic year via email around June/July each year. Students can select electives through the EE on-line elective selection system. EE and other servicing departments will determine whether to offer certain courses based on the data collected in this exercise. Pre-registration for selected courses will be done for the students. Anyhow, students are requested to check their final registered course list during the University Web Registration Period to ensure the courses on list are those they plan to take. Updated elective list is available from the 'Programme Information' section under the 'Student Page' of EE homepage.

Q5: What is the deadline for adding/dropping courses? What is the penalty for late drop? It is usually the second Monday of a semester. Students should pay attention to announcements from SGS and the Department. After the ADD/DROP period, students will need to seek Associate Programme Leader's approval with strong justifications.

If you apply for late drop after the end of week 2 and before the end of Week 6 in Semester A/B (Week 3 in summer term), you will be liable for 50% of the tuition fee payable for that semester/term or the minimum tuition fee of two credit units, whichever is higher.

If you apply for late drop in Week 7 and afterwards in Semester A/B (Week 4 or afterwards in summer term), you will be liable for 100% of the tuition fee payable for that semester/term or the minimum tuition fee of two credit units, whichever is higher.

Q6: If I do not wish to take any course in a semester, what should I do?

If you do not wish to take any courses in any semester, you have to apply for Leave of Absence before the end of Week 2 in a semester/term. Successful applicant is required to pay a Continuation Fee of \$1,500 to maintain an active enrolment status in the University.

Q7: What about if I apply for leave of absence after the end of Week 2?

If a student applies for Leave of Absence from Week 3 till the end of Week 6[#] in Semester A/B (or the end of Week 3[#] in Summer Term), the student will be liable for 50% of the tuition fee payable for that semester/term, or the minimum tuition for two credit units (for programmes charged on a per credit unit basis), whichever is higher.

If a student applies for Leave of Absence in Week 7[#] and afterwards in Semester A/B (or Week 4[#] and afterwards in Summer Term), the student will be liable for 100% of the tuition fee payable for that semester/term, or the minimum tuition for two credit units (for programmes charged on a per credit unit basis), whichever is higher.

Sunday is the first day of the week.

- Q8: When should I apply for the Continuing Education Fund (applicable to HK residents only)?
 - Before the commencement of the course.
 - Details can be found in
 http://www.ee.cityu.edu.hk/home/programmes_MScMIT_FinancialAssistance.ht
 ml#Content.
- Q9: How can I register for courses which are not web-enabled?

Once the students' pre-registration schedules are available in AIMS, usually a week before the Web Registration Period, students can make use of the Add/Drop Form in AIMS to submit their add/drop requests for courses which are not web-enabled to the Department via the EE General Office. Students will automatically be notified by email of successful add/drops.

Q10: How can I apply for Business Management (BM) option?

Students intending to transfer to the BM option should return the application form to EE General Office for further endorsement process as soon as possible, preferably not in the last semester where students will be able to graduate from the parent MSMIT programme. The latest to do so is **no later than week 2** of the aforesaid last semester. Application forms are available from the General Office, or students may download from "Student Page — Programme Information — "Business Management (BM) Option" under the EE web site: http://www.ee.cityu.edu.hk." (Login: eestudent, Password: eestudent).

Q11: How can I apply for Industrial Research (IR) option?

Details for transferring to IR option will be advised via email in due course. Please check email regularly for the update. A briefing session of IR option will usually be arranged around the end of Semester A each year.

STAFF LIST AND SPECIALISM

As at September 2018

		~
Head of Department Chair Professor of Floatronic Engineering		Specialism
Chair Professor of Electronic Engineering Professor Stella W PANG B.Sc. Brown, M.Sc., Ph.D. Princeton, FIEEE, FAVS, FECS	彭慧芝教授	Biomedical Sensors and Microsystems, Nanofabrication Technology, Nanoimprint
Associate Head Chair Professor of Electronic Engineering		
Professor Kwok Wa LEUNG B.Sc., Ph.D. <i>CUHK</i> , FIEEE	梁國華教授	Antenna Theory and Design, Computational Electromagnetics
University Distinguished Professor, Affiliate		
Professor Way KUO B.S. <i>National Tsing Hua</i> , M.S. Ph.D. <i>Kansas State</i> , Foreign Member CAE, Member NAE, Member Academia Sinica, FIEEE	郭位教授	Modeling, Evaluating and Estimating Reliability of Electronics/Nuclear Systems

Glossary

Academic

Year/Semester/Term

The academic year is a period of twelve months starting normally in September of each year. The academic year is divided into two Semesters and a Summer Term.

Assessment

The tests, coursework, examinations and other activities used to assess students' progress through courses and to assign final grades.

Course

The basic units of instruction into which students are registered and for which grades may be assigned. Each course is identified by a unique course code which is composed of a letter code and a numeric code. The first digit of the numeric code indicates the course's level of academic difficulty. University courses are approved for inclusion in the course catalogue.

Course Leader

A Course Leader is appointed by the Head or Dean of an academic unit for each course offered by the academic unit with responsibility for the delivery and assessment of the course.

Credit Transfer

The assignment of credit units toward the credit unit requirements of a programme on the basis of work done outside that programme. Credit units for transfer are normally assigned based on specific courses that are equivalent in content and standard.

Credit Unit

Each course is assigned a number of credit units. A credit unit is earned by approximately forty-to-fifty hours of student work.

Enrolment

The completion of specified procedures to attain student status at the University.

Equivalent Course

Equivalent courses are those where there is sufficient overlap in content that students may, with approval, register in to meet a programme requirement, to recover a failure or to improve a course grade.

Exclusive Course

Exclusive courses are those where there is sufficient overlap in their content to make it inappropriate for students to earn credit units for more than one of the courses. Students will be restricted from registration in a course when they have earned credit units for an exclusive course.

Prerequisite A requirement that must be fulfilled before a student can

register in a particular course. **Precursors** are set for some courses. Precursors are not compulsory requirements, but students are advised to complete precursors before registering

in these courses.

Programme The structured academic programme leading to a named

award of the University into which students are enrolled.

Registration The inclusion of a student in the class list of a course.

Senate The University Senate of City University of Hong Kong.

Taught Postgraduate A student enrolled for a Postgraduate Certificate,

Postgraduate Diploma, or Master's Degree.
