

***International Journal of Control* - Top Cited 2009 Articles**

[A fault tolerant control framework for periodic switched non-linear systems](#)

By Hao Yang; Bin Jiang; Vincent Cocquempot

***International Journal of Control* 82:1 Pages 117 – 129**

[A connectivity-preserving flocking algorithm for multi-agent systems based only on position measurements](#)

By Housheng Su; Xiaofan Wang; Guanrong Chen

***International Journal of Control* 82:7 Pages 1334 – 1343**

[Constrained intermittent model predictive control](#)

By Peter J. Gawthrop; Liuping Wang

***International Journal of Control* 82:6 Pages 1138 – 1147**

[State estimation for linear and non-linear equality-constrained systems](#)

By Bruno O. S. Teixeira; Jaganath Chandrasekar; Leonardo A. B. Tôrres; Luis A. Aguirre; Dennis S. Bernstein

***International Journal of Control* 82:5 Pages 918 – 936**

[Consensus reaching in multi-agent packet-switched networks with non-linear coupling](#)

By Ulrich Münz; Antonis Papachristodoulou; Frank Allgöwer

***International Journal of Control* 82:5 Pages 953 – 969**
