A Magic Number – 9

1) Pick any number from {1, 2, 3, 4, 5, 6, 7, 8, 9}

2) Multiply it by 3

3) Add 3 to it

4) Again, multiply the result by 3

5) I'm sure you now have a 2-digit number, so add the two digits together

6) Don't tell me — I know your answer is 9
