### Abstract

A free workshop on COMSOL Multiphysics & Application Builder Workshop held in the City University of Hong Kong. To participate in the hands-on session, attendees will need to bring their own laptop and power strip.

Through the workshop, you can:

- Discover the capabilities and features of COMSOL Multiphysics and get a quick overview of the add-on products
- Learn the natural workflow of the COMSOL Desktop user interface through which all physical phenomena are set up
- See how to efficiently create and modify your models, and optimize your designs, step-by-step
- Experience the speed and ease of modeling in the COMSOL environment, shown through a hands-on Multiphysics simulation example
- Learn to convert an existing COMSOL model into an App using the COMSOL App Builder
