Department of Electrical Engineering
Course Offering of MScCIE, MScCIE with BM, MScCIE with IR in 2026/27
(Please note that the following schedule is subject to change without prior notice.)

Semester A

Day time courses will be held on any three consecutive 1-hour session between 9:00am – 6:50pm. For the exact class schedule, including tutorial or laboratory sessions if applicable, please check the master class schedule available at CityUHK Portal/AIMS.

Day time courses

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
EE5808[@] Topics in Computer Graphics	EE6603 Wireless Communication Technologies	EE8403 Machine Learning for Signal Processing Applications	EE8405 Queueing Theory with Telecommunications Applications	EE5606 Artificial Intelligence for Antennas in Wireless Communication	EE5415 Mobile Applications Design and Development
EE6626 AI-enabled Autonomous Driving				SM5306 Cinematic Arts Workshop	EE5607[@] Advanced Computer Architecture
EF5010[#] Economics for Business					
SM5332 Making Things Blip, Blink & Move: Introduction to Physical Computing					

Evening courses (7:00pm to 9:50pm)

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
EE5609[@] Computer Networks: Architecture, Protocols, and Applications	EE5438 Applied Deep Learning		EE6623 Sustainable Energy Systems	EE6605 Complex Networks: Modeling, Dynamics and Control	
IS5414[#] Analysis & Design of eCommerce Systems				CS5285 Introduction to Cybersecurity	

[@] *CIE Core course*
[#] *Business Management (BM) elective course*
[π] *Successful enrolment of EF courses is subject to approval by EF Department by considering students' latest academic results in CityUHK.*

Semester B

Day time courses will be held on any three consecutive 1-hour session between 9:00am – 6:50pm. For the exact class schedule, including tutorial or laboratory sessions if applicable, please check the master class schedule available at CityUHK Portal/AIMS.

Day time courses

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
EF5052[#π] Investments	EE6619 Antenna Design for Wireless Communications	EE5437 Internet of Things Technologies for Future City Applications	EE5815[@] Topics in Security Technology	EE5811 Topics in Computer Vision	EE5608[@] Modern Cloud Architecture and Deployment Practice
		EE6435 Multi-Dimensional Data Modeling and its Applications	EE6620 Linear Systems Theory and Design		SYE6015[#] Supply Chain Management
		SM5306 Cinematic Arts Workshop	EF5042[#π] Corporate Finance		SM6325 Philosophy of Technology and New Media
			EF5342 [#π] Financial Systems, Markets and Instruments		
			CS5487 Machine Learning: Principles and Practice		

Evening courses (7:00pm to 9:50pm)

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	EE6627 Quantitative Finance: Principles and Applications	EE5410 Signal Processing	EE6621 Computational Physiology and Neural Systems		
			CS5487 Machine Learning: Principles and Practice		
			CS6290 Priviacy-enhancing Technologies		
			SM5307 Digital Media & Moving Images		

[@] *CIE Core course*
[#] *Business Management (BM) elective course*
[π] *Successful enrolment of EF courses is subject to approval by EF Department by considering students' latest academic results in CityUHK.*

Summer 2027

The following course will be offered on 2 days per week for 7 weeks on daytime between 9:00am – 6:50pm. For the exact class schedule, including tutorial or laboratory sessions if applicable, please check the master class schedule available at CityUHK Portal/AIMS.

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
EE5805 Java Network Programming	EE5805 Java Network Programming				

Evening courses (7:00pm to 9:50pm)

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
SYE6204 VLSI/ULSI process integration
