Responsibilities

- Creating scalable and functional websites and apps
- Ensure the codes are complied with Internet standards
- Keep up to date with advances in technology, such as machine learning, and apply them to projects as well as promote the related best practices at theOrigo
- Collaborate with project managers, designers and back-end teams to create wonderful projects
- Be innovative on creating outstanding websites and features

Requirements

- Degree or above in IT / Computer Science / Engineering or related discipline
- Attentive to detail and committed to quality
- Proactive and passionate about new technological trends and enjoy sharing
- Enthusiastic about and immersed in new technologies
- Knowledge of web/app development is a plus
- Comfortable with a flat team structure with ideas and creativity flowing freely

Benefits

- You will be working with a high-performing and energetic team with excellent career progression.
- Attractive remuneration and package
  - 5-day work
  - Performance bonus
  - Medical insurance benefits
  - Birthday celebration
  - Free good coffee!

A competitive remuneration package and excellent career prospects will be offered to the right candidate. Interested parties please send a full resume with expected salary and availability to talent@theorigo.com.

All applications will be treated in strict confidence and used solely for recruitment purposes. Only shortlisted candidates will be notified for the interview.

theOrigo is an equal opportunity employer and all employment decisions are made on the basis of valid job qualifications regardless of race, color, creed, sex, age, national origin, ancestry, religion, medical condition, sexual orientation, marital status, physical handicap, or veteran status.
