

## HEAD'S WELCOME

Dear Students,

Welcome to the Department of Electrical Engineering (EE)! All of us in EE, the faculty, staff, and the EE Programme Management Team are ready to walk you through a transformation journey into the future leaders of technologies.

Achieving the goal is never easy. Conscientiousness and persistence to get most from your studies are the keys to success. The Department is here to provide all the necessary support. The programmes are relevant to the local community as well as having global impacts. Co-curricular initiatives including those career-related are designed to add value to students' whole-person development, ever considered as important as mastering strong technical knowledge for an outstanding graduate.

We have many successful stories of our graduates. Our faculty and staff are especially proud of our students' enthusiasm to think big in their career dreams, their achievements in student competitions, and students' novel and innovative ideas integrated nicely with hands-on experience. We are here to serve you and to provide you with the best resources available.

I am sure your aspiration for a fruitful journey will bring you final satisfaction and unexpected rewards.

Stella Pang  
Chair Professor and Head  
Department of Electrical Engineering
