# Statistics

Please describe your best experience/takeaways for PNS 2020.

- *The advanced technology and how we can use them*
- *learn more about EE in CityU and the evolution of engineering.*
- *The PNS scheme has widened my horizons to the many different departments in EE, and has encouraged me to learn more about all of them in secondary school, and promote this to everyone around me*
- *The experience of CityU EE students*
- *I enjoyed learning about bio-electronics and electronic systems the most. I did not have previous experience in these aspects and did not know much about them. The sharings allowed me to gain a deeper understanding of the applications of electrical engineering in daily life.*
- *I realize the breadth of idea engineering, and I understand that many industries need to have knowledge of EE*
- *5G and auto car*
- *Alan Lam' sharing. But I think all the sharing are very good.*
- *Knowing that EE has a wide range of studies about technologies and is bright for the future.*
