Edvanced Co. Ltd

What is Edvanced?

Edvanced is a one-stop continuous learning platform that connects subsidised CEF courses to learners. At Edvanced, we help you find the CEF/CPD courses you need for upskilling or reskilling yourself while getting you funded so that you can focus on what truly matters, learning.

We believe that learning is a lifelong journey and we want to make this journey fun, easy and rewarding for you.

Programmer

Edvanced seeks to attract high-calibre talent by offering quality development opportunities and a hands-on environment special to start up companies.

With networks throughout the world, *Edvanced* is looking for someone who has an entrepreneurial spirit.

As the programmer in *Edvanced*, your mission is to create engaging content architecture, innovative ideas and build a strong online presence that will be able to reach *Edvanced*'s target audience. As a member of the team, you must have the ability to work autonomously and as part of the team.

Job duties:
• Work closely and independently with the research team on web and mobile design/application optimization
• Have knowledge to support and/or lead front-end and back-end development
• Develop strong creative ideas for digital experiences
• Build and conceptualize designs that facilitate exceptional user experiences
• Contribute to a multitude of projects among the *Edvanced* team
• Pitch proposals identifying opportunities for business ventures

As a member of our team, we'll trust you to:
• Work closely with the *Edvanced* team among projects
• Have good organisational skills
• Be committed to the job
• Be proactive and come up with innovative approaches to problem solving

Requirements:
• Have strong written and spoken English and Cantonese abilities
• Have at least 1 year of experience
• Excel or have knowledge of programming languages (especially Flutter)
• Have hands on experience with UI development and content creation
• Must have a degree from a Hong Kong university, preferably in Computer Science, Engineering, Economics, and Data Science

To apply, please fill in the pre-screening form linked below:
