

## **SANA Semiconductors Ltd.**

### **Senior Member/Member of Technical Staff**

#### **Job Descriptions**

- Circuit design
- Test and Measurement
- Support technical works
- Training will be provided for less experience staff
- Sample preparation

#### **Requirements**

- Having a Higher diploma or degree in Electronic/Computer/Mechanical Engineering or related disciplines
- Interested in circuit design such as PCB layout/IC design
- Knowledge in impedance matching and RF circuit would be an advantage
- Training and education will be provided on their interested area

#### **Application**

Interested candidates please send your resume to Dr Steve MUNG

Email: [stevemung@sanasemi.com](mailto:stevemung@sanasemi.com)

#### **About Company**

##### **SANA Semiconductors Ltd.**

SANA Semiconductors is a fabless company specializing in developing Power Amplifier Modules (PAMs) for mobile phones and other 3G/4G/5G wireless and IoT devices. SANA leads the industry by delivering single band PAMs in the form factor of 2 mm x 2 mm and dual and quad band PAMs in 2.5 mm x 3 mm, which are the world's smallest in the respective classes. By employing advanced monolithic designs and simplified packaging methodologies, SANA has leading edge technical strengths and experiences in producing single, dual and multi band PAMs and other RF front-end modules in reduced sizes and with top performance for 3G/4G/5G and IoT applications.
