

382 Highly Cited Researchers (h>100) according to Google Scholar Citations

This is the **first edition** (with data collected during the **third week of October 2014**) of a **BETA** list of the public profiles of the most highly cited researchers (h-index larger than 100) according to their declared presence in the **Google Scholar Citations** database.

The list, that includes both living and deceased authors, is ranked first by h-index in decreasing order and when ties appear, then by the total number of citations as a secondary criteria.

This ranking is far of being complete, as many scientists have no developed a GSC public profile yet, that it is a very easy and free task and with a surprisingly large coverage of both contributions and citations. It is also probably we overlooked a few profiles, so please contact us with any information regarding gaps, missing profiles or the full project. Our editor is available from this email address [Isidro F. Aguillo](mailto:isidro.f.aguillo@univie.ac.at)

This ranking has been funded by the **Project ACUMEN**.

European Commission 7th Framework Programme, Capacities, Science in Society 2010. Grant Agreement 266632.
and the CSIC Intramural 201310E040

RANK	NAME	AFFILIATION	H-INDEX	CITATIONS
1	Sigmund Freud	University of Vienna	247	352727
2	Graham Colditz	Washington University in St. Louis	243	207319
3	Michel Foucault	Collège de France	217	504578
4	Ronald C Kessler	Harvard University	209	194718
5	Pierre Bourdieu	Centre de Sociologie Européenne Collège de France	208	367099
